An excellent PDF converter with a very user friendly interface. It is easy to use and the PDF creation is amazingly easy. The main bugs I had with it are the following, which I consider important: 1. But after the first zooming in, you won't be able to zoom in further. 2. If you try to save the image with certain restrictions to a certain folder, it doesn't save it. It is a nice, easy to use PDF converter. If I were to compare this to other PDF converters, it would be to pageflip and pdfcrack. This converter works very very fast and easily, I think the best out there for.png,jpg,jpeg,bmp format. It works amazingly well on its own, and when combined with a batch converter it can do wonders. The only wish I have is that there is a different watermark function to use, one that I can modify or choose from. It is a simple to use and powerful PDF converter.
