A: Two things: In your new URL you are using "", but all that this does is make the file available via an http request, not a torrent. See for how to actually start a torrent file. You're specifying the file to download as file:///C:/users/yourusername/Desktop/file.torrent (It does not appear that you've provided an actual URL for where to find the file), and as that file is on your desktop the correct path would be file:///C:/users/yourusername/Desktop/file.torrent. (Also, you shouldn't be using file:// URIs anyway, as those should not be shared over the web, and this is not an exception to that, as those can be quite easily shared.) If you want to be able to open the file with your torrent client on windows, make sure to provide a valid torrent URL. It shouldn't matter if the file is on your computer or elsewhere, as long as it is a valid torrent URL. cricket Updated: Mar 12, 2019 12:35 IST India's bowling unit has been their main strength, while vice-captain Ajinkya Rahane's unbeaten four-run knock provided support to MS Dhoni's unbeaten 48 to guide India to an emphatic win over the Kiwis in their first practice game in Hamilton. (India: 3-0 in Test series, 2-0 in ODI series). After the defeat, former India fast bowler Munaf Patel criticised the Indian team management for trying to play a Test series with a Test-heavy squad. He urged the team management to pick a Test-heavy squad from the beginning. Also Read: Pakistan bowlers were determined to take wickets, India to do same, says Moises Henriques "The Test-heavy squad is a jigsaw puzzle. Your best pieces go to the Test team, then you keep moving that team and play some Test-heavy players to back up the team," Munaf told India Today on their cricket show 'Waqt cheez hai'. "India have picked a very Test-heavy squad. You don't want to keep picking your best Test team. You want to have a Test-heavy squad. Which XI should be playing
