XForce Keygen Autocad Raster Design 2008.Q: How to update a ListViewItem using MVVM I have a ListView in my WPF application that is bound to a list of strings. The user is able to edit the string of the item by clicking on it. I would like to update the ListViewItem using MVVM. I tried to update the item by binding the Content property to the Model in the view. Also tried to use value converters and I've run out of ideas. The DataContext of my viewmodel is set to a MainViewModel instance. The ListViewItem is defined as an item-template:
