From a talent perspective, he is no less than a top 10er. His raps are appealing, his punchlines are strong, he flows well, and he has outstanding confidence on the mic. So why doesnt he ever get called a top 10 rapper I think its because he embraces being an anti-hero far too often. While I personally think that there are a lot of fantastic tracks on this album, the controversial (And somewhat senseless) The Black Slim Shady is going to be one of them that distracts listeners from everything else. Also, while I think The Game crafts verses that are unbelievably good, his love for namedropping just makes it feel like youre listening to Twitter on audio at times. If you are listening to this album, I think the best thing to do is this: Appreciate it for its essence as opposed to taking certain aspects so literally. Enjoy its high-level beats and raps. If you do that, you might actually think Eminem is The Black The Game.
