I am using Bootstrap 4 and I am trying to add font-face to the Grid system. I have tried copying the.ttf file to the "assets" folder Bootstrap provides a standard font family called "Open Sans" but I don't want to use their standard font and have my own custom font. I have also tried implementing the code for an @font-face in my css file but the font-face loads as nothing has been written in the "assets" folder. It is probably something really basic I am missing but I am fairly new to this so please be gentle with me .css file: @font-face { font-family: "Special"; src: url("fonts/Special_bold.ttf"); } @font-face { font-family: "Special"; src: url("fonts/Special.ttf"); } .container{ background-image: url(images/img.
